andCourse Description

This course description provides a concise summary of the main features of the course and the learning outcomes the student is expected to achieve, demonstrating whether he or she has made the most of the opportunities.learningAvailable. It must be linked to the program description.**;**

University of the Heirs of the Prophets (peace be upon them) - College of Media	1. Educational institution
Digital Media Department	2. Sectionscientific/ Center
IT Basics-INFOR	3. Course Name/Code
mandatory	4. Available attendance forms
M.M. Ghaith Musa Imran	5. Name of the subject teacher
annual	6. semester/year
Two hours per week	7. Number of study hours(kidney)
11/12/2024	8. Date this description was prepared

9. Course objectives

For the student to knowPhotoshop concept
The student studiesOrganize and arrange the image
For the student to seeAdd motion, rotation, and more to video images.
For the student to know File menufileand some other commands
The student should explainAreas of benefit from modern communication technology in the media
For the student to understand howWorking on Photoshop and Premiere together
The student must have the ability toPractical application of the Premier program
The student can expand his horizonsSpeed up, slow down, display videos and use filters with this program
The student should explain the conceptModern communication technology jobs in the media field

10.Outputs of theScheduledTeaching, learning and assessment methods
A- TheCognitive objectives A1-Knows the concept A2-Learn how to organize and arrange photos A3-Defines the main functions of Photoshop. A4-Learn about cartoons and their accompanying comments. A5-Determines the most important technical programs A6-Knowledge of digital technologies
B - ObjectivesSkillsYesPrivateScheduled. B1-Gain experience and skills by studying previous experiences B2-Learn about the most important elements of the course B3- The student acquires practical and scientific skills that help him perform his duty in the required manner. B4- Relying on the study of the technical programs passed
Teaching and learning methods
1- Scientific lecture method 2- Discussion method by directing questions to students and participating in the lecture
Evaluation methods
Daily oral test The test is short Monthly test Final Exam
C-Affective and value-based goals A1-Demonstrate professional responsibility at work by drawing on previous experiences. A2-Demonstrate the ability to work on programs A3-Ability to work in groups and collaborate A4- The ability to manage time optimally
D - General skills andQualificationTransferable (other skills related to employability and personal development). D1- The student can be a successful journalist. D2- The ability toSelf-awareness D3-To have realistic experiences with cognitive perceptions D4-To develop reporting skills

11.Course structure					
Evaluation method	Teaching method	Unit name/topic	Required learning outcomes	watches	week
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Photoshop definition	The student learns the concept of Photoshop.	2	1
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Organize and arrange the image	The student recognizes the picture	2	2
Electronic, written, oral and direct questions tests	Practical application on the computer using Photoshop	Cartoon and accompanying comments	The student understands digital cartoon drawing.	2	3
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	More details about Photoshop	The student should explain the features of Photoshop.	2	4
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical application for all Photoshop programs	The student should explain the main functions of	2	5

			Photoshop.		
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Premiere Program Definition	The student should be aware of the main tasks of the premier	2	6
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the interaction.	File menufileand some other commands	The student should be familiar with the features of the Premiere.	2	8
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Precision concealment reveal	The student should realize the accuracy and concealment in the Premier program.	2	9
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Speed up, slow down, display videos and use filters with this program	The student should demonstrate the use of video editing programs.	2	10
Electronic, written, oral and direct questions tests	Practical application	Add motion, rotation, and more to video images.	The student should be familiar with the use of	2	11

			program features.		
Electronic, written, oral and direct questions tests	Practical application	Working on Photoshop and Premiere together	The student should demonstrate working on both programs together.	2	12
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical application of the Premier program	The student explains how the Premiere program works.	2	13
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Comprehensive practical application	The student should realize the importance of working on programs.	2	14
Electronic, written, oral and direct questions tests	First semester exam			2	15
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Areas of benefit from modern communication technology in the media	The student should demonstrate the benefit of communication technology.	2	16

Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical applications of how to benefit from modern communication technology	The student should know practical applications to benefit from the programs.	2	17
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Modern communication technology jobs in the media field	The student should explain the use of technology in the media.	2	18
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Questions raised by communications technology about traditional media work	The student must provide his answer to the technological media questions.	2	19
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Employing information in the media field	The student should explain the use of information.	2	20
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical applications of how to employ information	The student should realize the practical applications.	2	21

Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Characteristics of good journalistic information	The student should explain the characteristics of journalistic information.	2	22
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	A historical overview of the emergence of the Internet	The student should explain the Internet.	2	23
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Media phenomena and issues that the Internet creates	The student should be familiar with digital media.	2	24
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical applications of how to benefit from the Internet	The student will understand practical applications of how to benefit from digital technology.	2	25
Electronic, written, oral and direct	Delivering lectures and discussions in person or	The concept and characteristics of electronic publishing	The student must explain	2	26

questions tests	electronically, depending on the general circumstances.		electronic publishing .		
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	E-book concept with practical applications	The student must show the electronic book.	2	27
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical applications of the most important software that can be used in the field of media work	For the student to understand The most important software	2	28
Electronic, written, oral and direct questions tests	Delivering lectures and discussions in person or electronically, depending on the general circumstances.	Practical applications	The student understands the programs	2	29
Electronic, written, oral and direct questions tests		Second month exam		2	30

12.infrastructure	
Digital Technologies - Eid Fathi	1- Required textbooks
	2- Main references (sources)

	A- Recommended books and references (Scientific journals, reports, ...)
https://www.researchgate.net/publication/323612516_mahyt_altqnyat_alrqmyt_-_albsryt_fy_alansanyat	B - Electronic references, websites...

13. Curriculum development plan: keeping pace with the scientific developments taking place and using modern methods in media studies, pointing out weak points, applying the basic components of comprehensive quality management.
